Dean's List

SUMMARY

I am seeking a full-time position where I can leverage my creative skills, passion for innovation, and technical proficiency to contribute to dynamic projects. I am eager to work in a collaborative environment, refining my abilities in digital media production, graphic design, and technological applications.

WORK EXPERIENCE

PRODUCTION ASSISTANT / Nexstar Media Group, Inc. - Erie, PA November 2024 to Present
- JET24 / FOX66 I work a split shift part-time during my full-time studies at Penn State Behrend. I set up the studio for the evening news. I can read rundowns and perform basic camera angles, including OTS, V-Mot, Box, and Zoom shots. I troubleshoot equipment if needed so the show goes on.

APPLIANCE SPECIALIST / LOWE'S 2013-2022 ERIE, PA
- I consistently exceeded both daily and monthly sales targets. My commitment to excellence extended beyond sales; I also focused on maintaining the showroom through daily cleaning and strategic inventory management, ensuring timely downstocking.
- In addition to achieving sales goals, I dedicated myself to providing exceptional customer service. I aimed to create memorable experiences for clients, leaving them satisfied and smiling. Over the years, I've taken on various roles at Lowe's, including Flooring Specialist, Head Cashier, Installed Sales Manager, and SOS Coordinator in various locations.

SKILLS

Extensible Markup Language (XML), Extensible Stylesheet Language Transformation (XSLT), Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), Python, Schema, XProc, GitHub, Adobe Media Encoder, Adobe Photoshop, Adobe Premiere, ProTools, Blender, Photography, Digital Cameras, Management, Communication skills, Intermediate Spanish, and Beginner French.

ACADEMIC PROJECTS – Please visit my GitHub for project examples -- https://github.com/ceq5032?tab=repositories

- I created a personal portfolio in GitHub that is still being updated in between work, projects, and school. The main coding languages used were HTML, CSS, and JAVA.
- I led The Walking Dead project, where I worked with classmates to pull information from an existing website and emphasize parts of The Walking Dead Compendium Volume 1 comic book. Various coding languages were used, including XML, HTML, CSS, and JavaScript.
- I have created a photography website that showcases my photography class projects and some on-the-side photography.
- I was the team lead during a project, and we developed a customizable dashboard prototype used by insurance companies. We closely collaborated with a local insurance company, and they were pleased with the outcome.
- I am creating a Horror Movie review website using eleventy, node.js, and nunjucks. I also have two other projects currently in progress, consisting of an additional website and a Blender World that's a haunted house.
